PROFESSIONAL SUMMARY

Junior Software Developer with a focus on building scalable web and mobile applications. Proficient in ReactJS, Flutter, and PHP, with a proven track record of architecting complex systems like a multi-role School Management System with integrated LMS. Strong foundation in RESTful APIs, Database Design, and Version Control, complemented by hands-on experience in IT Infrastructure and Hardware Support.

TECHNICAL SKILLS

- **Software Development:** ReactJS, Flutter, Dart, PHP (RESTful API), MySQL, Tailwind CSS, JavaScript, HTML/CSS.
- **IT Support & Networking:** PC Repair & Troubleshooting, Hardware Assembly, System Formatting (OS Installation), LAN Cabling & RJ45 Crimping, Wi-Fi Access Point Configuration.
- **Tools & Workflow:** Git/GitHub, Power BI, Blender, OBS Studio.
- **Core Concepts:** OOP, MVC Architecture, Database Design, System Architecture.

SOFT SKILLS

- **Communication & Collaboration:** Experienced in handling helpdesk requests and coordinating with different departments during institutional events at WCC.
- **Problem-Solving & Analytical Thinking:** Proven ability to debug complex system logic and troubleshoot hardware/network issues under pressure.
- **Adaptability:** Fast learner with the ability to shift between software development and hardware maintenance tasks.
- **Technical Documentation:** Skilled in tracking IT assets and encoding serial numbers for systematic inventory management.

WORK EXPERIENCE

IT Support Intern (OJT) World Citi Colleges ATC North Manila | Nov 2025 – Feb 2026

- **Infrastructure Maintenance:** Diagnosed and resolved hardware issues, performed internal cleaning, and executed RAM/SSD upgrades for campus workstations.
- **Network Operations:** Assisted in the installation and configuration of Wi-Fi access points and resolved LAN connectivity issues to ensure stable campus-wide internet access.
- **System Administration:** Managed full system reformats and configured software environments (JDK, Android Studio) for Computer Laboratory units.
- **Event Technical Support:** Configured OBS and managed livestreaming setups for institutional events and e-sports tournaments.
- **Inventory Management:** Conducted a comprehensive IT asset inventory across multiple departments, encoding serial numbers for systematic tracking.

ACADEMIC & DEVELOPMENT PROJECTS

School Management System (SMS) with Integrated LMS | 2026

- Architected a multi-role full-stack web application using ReactJS and PHP to centralize academic, financial, and administrative data.
- Developed custom "Gatekeeper Logic" to automate student access to digital learning materials based on real-time payment verification.

PulsePH: Community-Based Information and Alert System | 2024–2025

- Engineered a mobile solution using Flutter and Firebase to streamline emergency reporting and communication within local barangays.
- Implemented geolocation verification and real-time push notifications to enhance community safety and response times.

Eidetic Printing Shop Web System | 2nd Year

- Created a web platform for online print ordering and file management using PHP and MySQL.
- Developed an order tracking feature to improve service transparency and customer pickup efficiency.

Sisighan's Sisig Shop Website | 1st Year

- Designed a local food business website with an Admin Dashboard for menu management and customer order processing.
- Technologies used: HTML, CSS, JavaScript, PHP, and MySQL.

EDUCATION

- **BS in Computer Science, *Magna Cum Laude*** | Colegio De San Pascual Baylon (March 2026) **Dean's Lister** (AY 2022 – 2026)
- **Senior High School (STEM)** | AMA Computer College – Caloocan (With Honors)
